

AGENDA and WEBINAR N°2 SPEAKERS

June 26, 2020 (2:00 p.m. CET)

- 14:00-14:10** Introduction
- 14:10-14:25** STSMs during the 1st grant period: Results and future implementation
Matej BALÁŽ (Institute of Geotechnics, SK) – STSMs leader
- 14:25-14:40** *In situ* monitoring of mechanochemical reactions of ammonia borane with metal hydrides by Raman spectroscopy and temperature measurement
Igor MILANOVIC (Vinca Institute of Nuclear Sciences, RS)
- 14:40-14:55** *In situ* Raman monitoring of the mechanosynthesis of phenytoin, a World Health Organization essential medicine
Francesco PUCCETTI (RWTH Aachen University, DE)
- 14:55-15:10** Continuous flow mechanochemical-assisted valorization of levulinic acid to *N*-heterocycles
Daily RODRIGUEZ-PADRÓN (University of Cordoba, ES)
- 15:10 -15:15** Next webinars and Conclusions
